Fourth Tuesday of Ga., Inc. is....

a non-profit membership organization of lesbians from all backgrounds, coming together to:

- ▼ Create and sustain a safe and supportive environment in which to explore our concerns.
- ▼ Share our goals and develop our strengths and resources.
- ▼ Experience positive images of ourselves through social, recreational, educational, and professional activities.
- ▼ Hold monthly programs providing topics of interest to the lesbian community.

How it all began...

Fourth Tuesday began in 1982 when two business women made a date for a lunch meeting. They met at work and found common ground as lesbians. They agreed to have lunch on the fourth Tuesday of October with each bringing a friend. The four enjoyed the social networking so much they set a second date for the following month. Six women met in November. As the pattern continued, the group quickly grew too large for a luncheon. They began to meet for dinners in a North Highland Avenue restaurant. Individuals began to see positive results from the growing circles of women both socially and in business contacts. The group has expanded over the years to as many as 500 members.

What Fourth Tuesday can mean for you...

How Fourth Tuesday benefits our community...

▼ The Pat Hoban Scholarship

Fourth Tuesday inaugurated the Pat Hoban Memorial Scholarship in 1992 to honor a member who valued the benefits of higher education. This annual award is given to an Atlanta area lesbian who seeks to further her professional career through college or graduate training. Scholars commit themselves to return something back to the lesbian community. The award is a check of $1500.00 written to the university on behalf of the recipient.

▼ The Fourth Tuesday Lesbian Cancer Project

The Lesbian Cancer Project was founded in honor of JoAnn Loulan in 1995. The project aims to offer volunteer support services to cancer patients, provide educational materials to the lesbian community regarding early detection, and to advocate for lesbians in the various medical and research arenas around cancer as a women's disease.
